SPORTFISHING WHITSUNDAYS

Sensational fishing at the Reef

Go to where Whitsunday fishing is at its best... The Great Barrier Reef! With early departures, we steam past the Whitsunday Islands to remote reefs, giving you the best opportunity of catching quality fish and ensuring a full day of fishing. We cater for all types of fishing using top quality gear. From reef fishing for delicious coral trout, emperor, trevally and shark to sport fishing for pelagics such as spanish mackerel, shark mackerel and tuna. We cast poppers for the hard fighting, highly prized giant trevally, with many released over 40kg. To top off the ultimate trip, we can troll with light tackle for the elusive juvenile black marlin, sailfish, tuna or line burning spanish mackerel.

Since its inception in 2009, Sea Fever have earned a solid reputation as a hardworking, friendly and highly skilled fishing operation. We are the only charter company from Airlie Beach to consistently fish the reef, often without sighting other boats all day. We believe this is the difference to giving anglers a truly memorable fishing experience.

Owner/Skipper Ashley Matthews, Skipper Paul Moran and their energetic crew live and breathe fishing. Their local knowledge of fishing the reef and professionalism is absolutely second to none.
